FUNFAIR

A little world of imagination.

Every ride, every game, every sign and every decorative panel has been painstakingly restored or created entirely by hand.

Our dream was simple: to build the sort of place that makes children stop, stare, smile—and believe, if only for a moment, that magic might really exist.

A little world of imagination.

Every ride, every game, every sign and every decorative panel has been painstakingly restored or created entirely by hand.

Our dream was simple: to build the sort of place that makes children stop, stare, smile—and believe, if only for a moment, that magic might really exist.

Attractions 2026

Coconut shy

Swingboats

Chair O Plane

Strikers

Hoopla/Hook a duck

Candyfloss cart

Who is our fairground for?

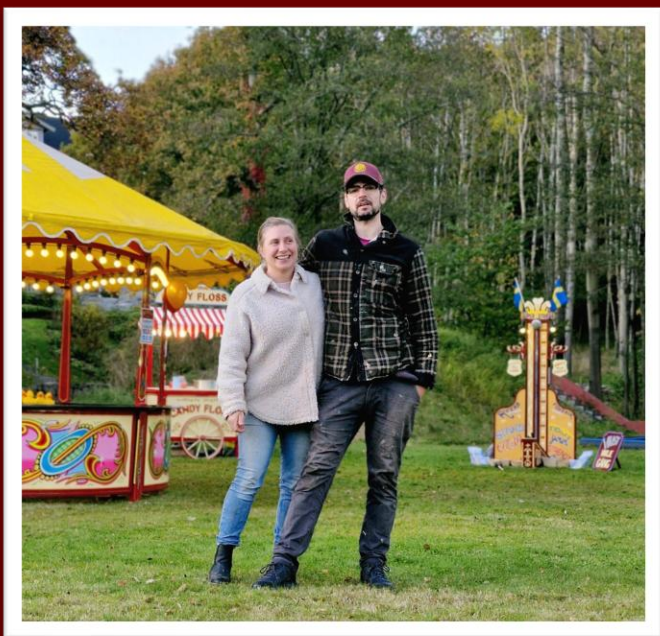

- Our fairground is intended for children under 7 years of age.
- The height restriction on the rides is 130cm.
- Games have no height restrictions but are designed for children aged 7 and below.
- We do have a large striker game that is built for adults and older children - something for the parents and older siblings!
- The rides and games are all hand-powered and do not require noisy generators – this is both to preserve the authenticity of the attractions and contributes to creating a more comfortable space for children with sensitivity to loud noises. The only element that requires mains power is our Candyfloss Cart.
- The rides and games are affixed with soft (12v) lighting.
- Most of the fairground can be built up on both concrete and grass (except the Swingboats, which can only be setup on grass). However, we strongly favour locations with grass, as the paintwork on the attractions has been purposely designed to contrast with it.
- Complete footprint approximately 30 × 30 metres.
